

BED AND BREAKFAST AND SELF CATERING COTTAGE DES PRÉS DE GARNES

HOUSE GUIDE

À PROPOS

The Petite Ferme des Prés de Garnes was the farm of the Château de la Cour Senlisse that you can see just opposite, on the north side. It was what is called a "souâton" farm. The work there was shared among the villagers. They pooled their horses for work in the fields.

Unlike the large buildings on the Hurepoix plateaus, the Petite Ferme is a place of modest culture, under the sign of village mutual aid. You will discover as such, the bread oven in the living room of the cottage.

To the east, a 4-hectare meadow, bordered by a river: the Rû des Vaux de Cernay, invites you to relax and is ideal for your outdoor activities.

Welcome!

Welcome to our
charming cottage!
Here we celebrate and
respect life.

We only use planet-
friendly cleaning
products and the
Vapodil, a dry steam
cleaner.

**We do not inherit
the earth from
our ancestors,
we borrow it
from our children.**

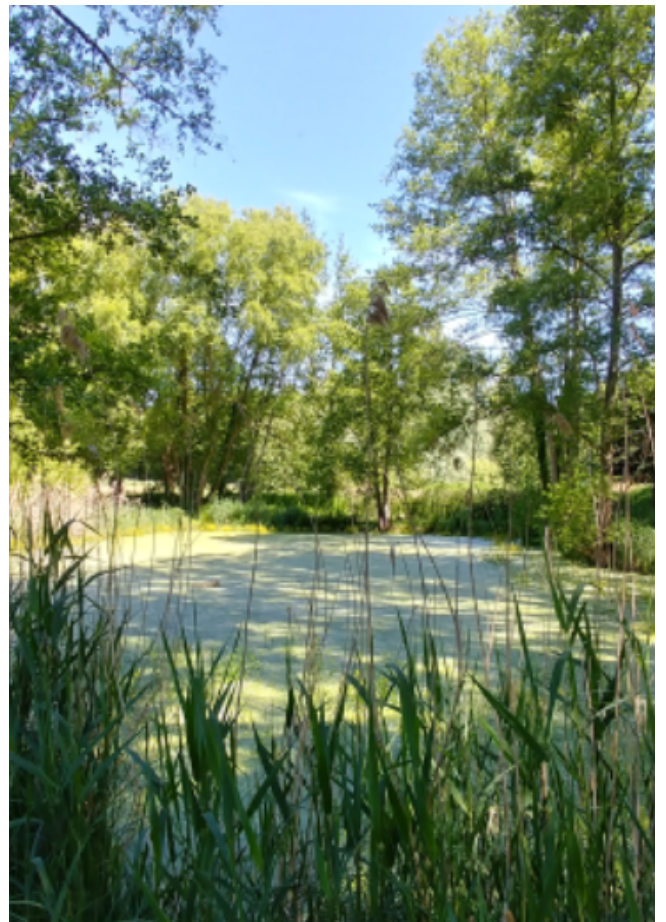

We strive to be environmentally friendly. We encourage you to use our compost bin: it's a small white bucket for this purpose. It says "compost" on it. We will show you where to empty it or we will do it on request.

Our city also asks us to separate recyclable plastic from glass, metal and paper. We have provided special containers for you to do this. They are under the sink in the kitchen.

Then, the other so-called "household" waste can be thrown in the trash can which is at the exit of the kitchen on the small terrace of the gîte. If a trash bag isn't already in the trash can, you'll find them under the sink as well.

BEFORE YOU GO: Big bins for each category are behind the shed. The compost bin is in the vegetable garden. We will do this for you upon request. Thank you!

We know tap water is not very good and people tend to buy water in plastic bottles. **STOP!** In order to stop using plastic bottles, we have provided you with glass bottles that you will fill with our reverse osmosis filtered and revitalized water! Pediatricians recommend drinking light water for babies, so it's good for you too! in case of emergency

**Please separate plastic, paper, metal
and glass.
Use our compost bin!
Don't buy plastic water bottles.
Fill the glass bottles with our filtered
water!**

More information about the fountain...

WHERE TO DO YOUR SHOPPING

You can find a varied choice of local products delivered to you at the gîte thanks to "Fermes & Clic"!

Producers from various municipalities in the Regional Natural Park of the Haute Vallée de Chevreuse and the surrounding area, we have created this company together which offers you a range of local, diversified and accessible products.

Order your basket of products, and it will be delivered to you at the gîte.

MARCHES FERMISERS ET AUTRES MAGASINS

ACTIVITIES IN THE SURROUNDINGS

We have provided you with some tourist leaflets with a list of events in the area. Depending on what you like to do, the choices are very varied and numerous.

Cycling, hiking, museums, visits to castles...

Right next to the cottage, you have the castle of Dampierre-en-Yvelines in the heart of an area of about 400 hectares. It was built by Jules Hardouin-Mansart, the same architect as the Palace of Versailles.

Vaux de Cernay abbey, now under construction, but which can be seen when you hike through the Rambouillet forest.

The domain of Breteuil, its gardens (classified) with its dovecote and its labyrinths and the castle to visit which retraces the history of France thanks to wax figures.

The small mill of the Vaux de Cernay Pretty hike and museum, a stone's throw from the gîte.

GÎTE ET CHAMBRE D'HOTES DES PRÉS DE GARNES

À PROPOS

Nous vous proposons de venir passer un séjour au coeur d'un parc naturel régional à moins d'une heure de Paris, et pourtant si loin de la pression des villes.

La Petite ferme des Prés de Garnes était la ferme du château de la Cour Senlisse que vous remarquerez juste en face, côté nord.

Elle était ce qu'on appelle une ferme à souâton. Le travail y était partagé entre les villageois. Ils mettaient en commun leurs chevaux pour les travaux des champs.

Contrairement aux grandes bâtisses des plateaux du Hurepoix, la Petite Ferme est un lieu de culture modeste, inscrit sous le signe de l'entraide villageoise. Vous y découvrirez à ce titre, le four à pain dans le salon du gîte.

A l'est, une prairie de 4 hectares, bordée par une rivière : le Rû des Vaux de Cernay, vous invite au farniente et est idéale pour vos activités de plein air.
